Summary

Recently graduated Software Engineer with hands-on experience building responsive full-stack web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and MySQL. Proficient in RESTful API architecture, real-time application design, Oracle APEX, cloud deployment, Git workflows, and core DevOps fundamentals including CI/CD pipelines. Currently seeking a web development position that offers continuous learning and mutual organizational growth.

Technical Skills

Frontend:	React.js, Next.js, JavaScript, Bootstrap, Tailwind CSS
Backend:	Node.js, Express.js, Oracle APEX, REST APIs, Socket.IO
Databases:	MongoDB, MySQL, Oracle Database, SQL, PL/SQL
Tools:	Git, GitHub, Socket.IO, Postman
Cloud & DevOps:	AWS (EC2, S3, IAM), Docker (Basic), Kubernetes (Basic), CI/CD Concepts

Experience

Oracle APEX & Web Application Development Intern Jul 2025 – Current

Sehat Sahulat Program, Islamabad

- Worked as a MERN Stack Developer developing and maintaining enterprise web applications using MongoDB, Express.js, React.js, Node.js, JavaScript, HTML, CSS, and Socket.IO.
- Developed responsive web modules, integrated REST APIs, implemented dynamic frontend functionality, and optimized backend services for reliable application performance.
- Built real-time chatting and notification features using Socket.IO and Node.js, enabling instant communication and updates across the application.
- Collaborated with developers and business teams on troubleshooting, testing, debugging, and delivering secure, responsive, and scalable solutions.

Projects

ChatApp – Sehat Sahulat Program GitHub

- Developed a real-time communication application, working on UI development, database operations, SQL/PLSQL, JavaScript, debugging, testing, and application enhancements.
- Implemented real-time messaging using Node.js and Socket.IO with a responsive UI and reliable application performance.

AdEverywhere – University FYP Project Live Demo

- Worked as a Full-Stack Developer on frontend/backend features, REST APIs, authentication, database operations, deployment, Git/GitHub, and CI/CD pipelines.
- Developed responsive and scalable functionality while troubleshooting issues, optimizing performance, and maintaining deployment reliability.

RentBraker – Freelance Project

- Developed a full-stack rental management application with responsive UI, backend APIs, authentication, database integration, testing, debugging, Git/GitHub, and deployment.

XRun – Freelance Full-Stack Developer Live Demo

- Developed responsive frontend interfaces, backend APIs, authentication, database integration, testing, debugging, deployment, and performance improvements based on client requirements.

NotificationSimple – Sehat Sahulat Program GitHub

- Developed and customized an Oracle APEX application using Oracle Database, SQL, PL/SQL, and JavaScript, working on pages, forms, reports, validations, dynamic actions, and application processes.
- Performed database operations, debugging, testing, UI enhancements, and application improvements for better usability and reliability.

Personal Portfolio – MERN Stack Live Portfolio

- Developed a full-stack portfolio using React.js, Node.js, Express.js, and MongoDB with responsive UI, backend APIs, database integration, Git/GitHub, deployment, testing, and performance optimization.

Education

Bachelor of Software Engineering CGPA: 3.16/4.00

City University of Science & Information Technology, Peshawar

Certifications

- MERN Stack Web Development – Coursera/Udemy, 2023
- Oracle APEX Cloud Developer Certified – Oracle Academy, 2025
- DevOps and AI on AWS – AWS/Coursera, 2026
- DevOps and AI on AWS: CI/CD for Generative AI Applications – AWS/Coursera, 2026
- DevOps and AI on AWS: Upgrading Apps with Generative AI – AWS/Coursera, 2026
